

John O. Blackburn

Resume June 30, 2003

AB Duke University 1951

Active Duty U.S. Navy 1952-56.

PhD in Economics, University of Florida, 1959.

Faculty, Duke, 1959-1980 except:
American University of Beirut, 1961-62.

Economics Department Chair, 1968-70.

Duke University Provost 1970-71.

Duke University Chancellor 1971-76.

Since retiring:

Books Published:

The Renewable Energy Alternative, Duke Press, 1986.

Solar Florida, Florida Conservation Foundation, 1993.

Ongoing (at a lazy rate) research into sustainable economy features.

Trying to quantify the effects on materials and energy flows of steps toward sustainability. (population growth levelling off, durability, waste reduction, recycling, etc).

Also looking at economic incentives and disincentives.

Example: drivers in the Orlando area fail to pay the annual costs of driving by \$2 billion. Hence sprawl, auto overuse, and lack of alternatives.
