General Restrictions

- A maximum of TWO economics transfer credit courses will be accepted toward the major (A.B. or B.S.). This applies to courses taken in the United States and to study abroad courses. One exception is the London School of Economics full-year (fall & spring) program, from which a maximum of FOUR courses may be counted toward the major.
 - **Effective for courses taken after the Spring 2018 semester, we will no longer accept transfer credits for the following courses: Economics 205, Economics 208, and Economics 210.** Courses that are part of “Duke In ...” programs count as Duke courses and not transfer courses (please note that a few “Duke In ...” programs are hybrids in which some courses count as Duke courses but students may also take transfer courses at the foreign institution). Also, inter-institutional courses are not considered transfer courses, nor are pre-matriculation credits. If you have questions about whether a course taken away from Duke would be considered a transfer course, please consult the DUS or ADUS before taking the course.
- ACES enforces prerequisites for many ECON courses.

*Students with credit for both AP Macro and AP Micro (4 or higher) may receive credit for ECON 101. To receive credit for ECON 101 using an international standardized exam, please visit <http://trinity.duke.edu/undergraduate/academic-policies/credit-AP-IPC-PMC> for qualifying scores.

Prerequisites are enforced for ECON 205D. They include ECON 201, MATH 111L and **either MATH 212 **or** MATH 212 **or** MATH 222.
